

OWENS CORNING SHINGLE WARRANTY

Our Commitment to a Quality Installation

Your roof is a critical investment, and with Owens Corning, it's built to last. Their roofing systems are backed by a Limited Lifetime Warranty, including 10 years of full coverage on materials and labor, plus wind protection up to 130 MPH. Installed as a complete system, it delivers reliable, long-term protection you can trust.

What You Get

- **Limited Lifetime Warranty**
- **10-Year Full Coverage** (materials + labor)
- **Up to 130 MPH Wind Protection**
- **Algae Resistance Warranty**

A **Limited Lifetime Warranty** from Owens Corning means your shingles are protected against manufacturing defects for as long as you own your home. During the **first 10 years, you receive full coverage on both materials and labor**. After that period, coverage continues for the life of the shingles, but is prorated over time. This warranty is designed to give you long-term protection and added peace of mind, knowing your roof is backed by a trusted manufacturer.

The **10-Year Full Coverage** Period from Owens Corning - also known as the **TRU PROtection®** period - is your strongest level of protection. During this time, 100% of both materials and labor are covered if there's a manufacturing defect, with no prorating or out-of-pocket cost to you. It's designed to give you complete peace of mind right after installation, when your roof is expected to perform at its best.

Your roof is built to handle tough weather, **with coverage for winds up to 130 MPH** when installed as a complete Owens Corning system. This protects against shingle blow-offs or wind-related failures, giving you confidence your roof can stand up to severe conditions.

Owens Corning shingles are designed with built-in protection **against algae growth** that can cause dark streaks on your roof. This warranty helps keep your roof looking clean and uniform over time by resisting discoloration caused by algae, adding to both the appearance and long-term value of your home.
